Cotton Markets.

GALVESTON .- Cotton weak on the 5th; middling, 916c.; low middling, 816c.; good ordinary, 71/c.; net and gross receipts, 4,152 bales; exports to Great Britain, 4,777 bales; sales, 1,348 bales; stock, 63,714 bales.

New Orleans .- Cotton steady ; middling, 9c.; low middling, 81/4c.; good ordinary, 75/4c.; net receipts, 14,014 bales; gross, 14,710 bales; sales, 2,750 bales; stock, 64,037 bales.

MEMPHIS.—Cotton easy; middling, 9c.; receipts, 1,400 bales; shipments, 983 bales; stock, 17,047 bales; sales, 3,100 bales.

A CENTURY-PLANT at St. Augustine, Fla., is about to bloom, and has reached a height near forty feet. A Georgia hermit has his house in the

branches of a spreading oak tree. It is small, but quite snug. Two bulls met in an Arkansas town and fought so fiercely that no one could sepa-

forty minutes; and then one fell over dead. A COLORED boy at Newbern, N. C., was bitten by a rattlesnake the other day, and there being no doctor accessible, his com. panions dug a hole in the ground and placed both legs in it up to the hips, packing the mud securely around him. The poison was extracted and the boy is now

about well. JOHN CULPEPPER, an aged farmer, living alone on Julian's Creek, about four miles from Norfolk, Va., upon retiring the other night discovered a negro under his bed. He procured a shotgun and fired at the intruder, missing him. The negro seized the muzzle of the gun, and a struggle ensued, which resulted in Mr. Culpepper being horribly beaten with the weapon, having his skull and face crushed, one arm shattered and his right ear bitten off. The victim

can not recover. Robbery was the motive. A LITTLE old man named Harrison H. Oliver, of Bolton, Bell County, Tex., is said to be "the most remarkable repository of cold lead in the country." In the course of a highly:belligerent life he has been wounded 101 times, and in a great number of cases the missiles are held in his person.

GOTLIEB HARTLIEB, of Elm Grove, W. Va., shot dead a stranger whom he found in his kitchen, and who refused to go out. TYPHOID fever is epidemic at Benwood,

W. Va., where there are fully fifty cases. A small boy, living on the line of the Wheeling (W. Va.) Natural Gas Company's mains, found a small leak in a twelve-inch pipe and applied a match to see the gas burn. He was unable to extinguish the fire, and by degrees the lead packing of the joint melted and ran out and the fire increased in volume until the pipe broke and a mass of flame shot fifty feet into the air with a deafening roar. The result was to cut off the supply of gas from the city. All the mills and factories in Wheeling, Martin's Ferry, Ætnaville, Bellaire and Bridgeport, employing in the aggregate several thousand men, had to close down until repairs could be made and the gas

Paris green, a cheap preparation of arsenic, is a favorite antidote for cutton caterpillars. When the worms made their appearance in North Louisiana early in the season it was used in immense quantities. The negroes have always been afraid of it, and claimed that it endangered their health to pick cotton in fields where it was used. On the Foster place, in Bossler Parish. where the plants were liberally sprinkled with Paris green, a sickness has broken out among the negro cotton-pickers, due to the poison. Some eight or ten have been made sick by it, and two have died. The darkies are frightened, and refuse to pick Paris

THERE are not one hundred saloons in South Carolina outside of Charleston.

WILLIAM HENRY FITZ LEE, who has been nominated for Congress in Virginia, is a son of General Robert E. Lee. He was a Confederate soldier, and being taken prisoner, was selected, with other prisoners, for execution, in case the Confederates carried out their threats of killing some colored soldiers whom they had taken prisoners. The negroes were not hanged.

Ix Dublin lives a rich Quakeress who is coming over to pass the winter among some colored people in Tennessee. These colored people have lately become Friends, and they wear the broadbrim.

A FUND has been started to erect a monument over the grave of Father Ryan, the , ture. post priest at Mobile, Ala.

## POWDERLY TALKS.

The Grand Master Workman of the Knights of Labor Revews the Growth and Educational Necessities of the Order.-Why He Opposed the Railroad and Eight- Hour Strikes. RICHMOND, Oct. 6 .- The only work trans-

acted in the National Assembly of Knights of Labor yesterday was the adoption of the report of the Committee on Credentials. Mr. Powderly's address has already been made public. The Grand Master opens his address by saying that the laws of the order require the General Master Workman to submit at the general assembly a report of his official acts during the year, but for him to do that would be impossible, for the reason, among others, that such a report would take at least four weeks' time to prepare. For information as to details of the Executive Board's actions the convention is referred to the rate them. The duel lasted one hour and various reports to be presented, and the Master Workman proceeds to consider matters of importance and make such suggestions as he deems necessary. The address proceeds:

address proceeds:

"If we are guided by the experience of the past, and act accordingly, we can place the order upon a footing so safe and sure that no assaults from its enemies can injure it. If we are not guided by that experience and close this general assembly without having improved on the past we will fall to properly represent those who sent us here. The rapid increase in organization since the Hamilton session of the general assembly has been most marvelous, 4,068 assemblies having been organized. Thousands have been attracted toward the order through mere curiosity; others have come for purely selfish motivos, while the great bulk of our new recruits joined for the good they could do. Quite a few have entered our order for the purpose of redressing existing wrongs, and before waiting to learn any thing concerning the duty of the Knights of the order, have plunged into rash and ill-considered strikes. The car-dr vers of St Louis were organized under promise of the organizer that they would receive ald unstinted in case of a strike. Even before the receipt of their charter they were on strike. Their proceedings were characterized by such utter disregard for our teachings that the paid and well-known agents of their employers had no difficulty in securing the passage of motions of a violent character. It is an established fact that men who were employed by detective agencies stood up on the floor of that assembly urging the men to deeds of violence and that the property of the street-car com-

of cases the missiles are held in his person.

A CITIZEN of Valrosia, Fla., wants to send some of the big red ants of that region, called "bulldog" ants, to surgeons for use in fastening wounds of the intestines. Ho says that if the edges of two pieces of soft paper are held together with a bulldog and held so that he will clutch both sides, and his head be then quickly twisted off, the says that Spanish surgeons use the bulldog ants as sutures in that way.

THE Journal of Commerce, of Baltimore, publishes special reports from the tobacco growing sections of Maryland, Virginia and North Carolina. Nearly all the reports claim that the yield will be much reduced, the estimates running from one-third to two-thirds of a crop, and with the quality, especially in parts of North Carolina and Virginia, very poor. In the great Durham District the yield is estimated at not over forty per cent. of an average, and of very inferior grade.

NATURAL GAS was struck at Fairmount, W. Va., a few days ago. When the gas was struck, the force was so great that all the tools were blown from the well and stone, we have a contract the day of the derick. It is said by experienced gas men to be the largest gas well in the country. The noise from the full papes it. A reduction of the boars in good of the paper and sone of the derick is and the decade in the decade in the decade in the decade in the deca ing up part of the derrick. It is said by experienced gas men to be the largest gas well in the country. The noise from the rush of the gas can be heard from six to ten miles.

The last cotton crop report for the Memphis district says: The light frosts which fell in portions of the district on the night of October 1, were not damaging, and the fair weather that has since prevailed gives assurance of favorable conditions which adds to the bright prospects of the planter, and enables him to gather his crop in a clean and satisfactory manner.

An unknown burglar broke into the road house on the National pike, near Wheeling, W. Va., and was fatally shot by the keeper.

At Yazoo City, Miss., Chas. McDonnall shot and probably mortally wounded Nellie Lawrence, and then shot and killed himself. The cause was jealousy.

WILL BONHAN, a young negro trainwecker, was captured and lodged in jail at Livingston, Ala., and on the 8th there was strong probability that he would be lynched.

President for the inauguration of the movement had been mapped out. For these same reasons do I still oppose it. A reduction of the hours of labor is a necessity, and sooner or later many places the ten-hour plan has not been adopted wit. For these same reasons do I still oppose it. A reduction of the suddent later oppose the ten-hour plan has not been adopted wit. For these same reasons do I still oppose it. A reduction of the hours of labor is a necessity, and sooner or later many places the ten-hour plan has not been adopted wit. For these same reasons do I still oppose it. A reduction of the suddent later oppose to the fair was the result of the suddent later oppose to the fair was the result of the suddent later oppose to the fair was the result of taking contracts. The move was the right direction, but the time and circumstances were not suitable. Before the light direction, but the time and optical in the gas and the trade unions of America must underso a failor of the suddent with twill be of any benefit to mankind can be inaugurated t

The address then refers to the trouble with trades unions, which Mr. Powderly said has been exaggerated and distorted, while admitting that there have been faults on both sides. He recommends that in the future all matters of dispute between the Knights and other societies be submitted to the executives of both organizations for settlement, and, above, all things, let a speedy and impartial investigation be made. Mr. Powderly then replies as follows to the criticisms of which he has been made the sub-

cisms of which he has been made the subject:

"I have never during the seven years that I have served as General Master Workman made a member of this order a subject of personal or public criticism or abuse. I have made it a rule never to speak in criticism, harsh or otherwise, of a man, except when a anding face to face with him I have been accused of displaying a 'lack of nerve' of 'want of backbone,' and of being too 'weak a man to lead a strong movement.' If,' who le holding a position such as no man living or dead ever held before, I have displayed a lack of nerve or backbone, why is it that a million men and women of nerve, of backbone and common sense have gathered around the standard which was placed in my hands seven years ago? If I have been proved a weak man why, do so many strong men support me? By men who are not Knights of Labor I have been called weak because I discountenanced violence and basty, ill-advised action. I have no excuse to offer, for if this is an offense, let the general assembly itself offer the apology. I will now speak as I have never spoken to a session of the general assembly before. Representatives have been instructed to vote for me for General Master Workman. I feel compl mented, but release every member from his obligation to vote for me. You are free to vote for any other man you choose, and if you act in accordance with my wishes you will se'ect another to fill my place. In vot ng for the General Master Workman don't be guided by sentiment or sympathy, but vote for the best interests of God's suffering poor and the cause of united labor."

Pour Children Injured. LEWISTON, Me., Oct. 6 .- An extraordinary calamity happened here yesterday. Rev. J. W. Twort, pastor of the Free-Will Baptist Church, was experimenting with a magic lantern for the amusement of his children, when he incautiously brought a rubber apparatus containing hydrogen into contact with the flame of the lanters. A terrific explosion ensued. The glass front of the house was blown away a distance of twenty set into the street, the stove was shattered and the jur-

niture was broken in oic.es. Four children

received internal injuries of a serious na-

IMPORTANT DISCOVERY.

The Artificial Manufacture of Quinine, According to Hewett's Plan. A remarkable discovery, by which the price of quinine may be reduced to something like six cents per ounce, has been made by Mr. Cresswell Hewett. The synthetical manufacture of quinine was first suggested to Mr. Hewett, in 1869, by the late Dr. Mattheson, of St. Bartholomew's Hospital, while giving his assistance in a course of experiments in connection with apomorphia. Subsequently, Prof. Parkes, of Netley, aided with his advice, and to these gentlemen, rather than to himself, Mr. Cresswell Hewett modestly explains that the process is due. The importance of this discovery is rendered greater by the fact that while hitherto we have been depending for our quinine on the cultiva-tion of the cinchona tree, from whose bark only about two per cent. of good quinine can be extracted, ninety-eight per cent. being valueless, the drug can now be manufactured without limit by a very simple process from an article which can always be got in abundance in any part of the world.—London Lan-

-It is estimated that sixty thousand tons of coal are stolen every year in transit. The thefts of coal at one station on a Pennsylvania road amount to about thirty tons every night. - Chicago

Hood's Sarsaparilla

INDIANAPOLIS.

LOUISVILLE.

GRAIN-Wheat-No. 2 red.......

Is prepared from Sarsaparilla, Dandelion, Mandrake, Dock, Pipaissowa, Juniper Berries, and other well-known and valuable vegetable remedies. The combination, proportion, and preparation are peculiar to Hood's Sarsaparilla, giving it curative power not possessed by other medicines. It effects remarkable cures where others fail.

Purifies the Blood No other preparation has such a purifying effect upon the blood as Hood's Sarsaparilla. It eradiapon the blood as Hood's Sarsaparilla. It eradi-cates every impurity, and cures Scrofula, Salt Rheum, Boilla, Pimples, all Humors, Dyspepta, Biliousness, Sick Headache, Indigestion, General Debility, Catarrh, Rheumatism, Kidney and Liver complaints. It overcomes that extreme tired feel-ing, and builds up the system.

Hood's Sarsaparilla Has met unparalleled success at home. Such has become its popularity in Lowell, Mass., where it is made that whole neighborhoods are taking it at the same time. The same wonderful success is extending all over the country. Its positive and peculiar merit makes now friends daily. It is sold by all druggists. El: six for St. Prepared only by C. L. HOOD & CO., Apotheceries, Lowell, Mass.

100 Doses One Dollar

"As good as represented," is what every body says of Frazer's Axie Grease.

Crows never kick up a disturbance with

3 months' treatment for 50c. Piso's Remedy for Catarrh. Sold by druggists. PERSONS who take measures to enlarge their business-Tailors.

BROWNS BEST TONIC

For Wenkness, Lassitude, Lack of Energy, tc., it HAS NO EQUAL, and is the only from medicine that is not Injurious. It Enriches the Blood, Invisorates the System, Restores Appetite, Aids Digestion It does not blacken or injure the teeth, cause head-ache or produce constipation—other from medicines de JAY VAN VECHTEN, M. D., New London, Ohio, says: "I have presented Brown's from Bitters with most satisfactory results in cases of Debility where a tonic is needed, and I know of no preparation of iron that does better."

MRS, MARY SWFENEY, 1032 W. Broadway, Louisville, Ry, says: "I had lost all appetite and was entirely broken down in health. I was greatly benefited by Brown's Iron Bitters and glady recommend it."

MRS, NANCY CURICE, Jeffersonville, Ind., says: "I was troubled with weakness and a general breaking down of the system. I used Brown's Iron Bitters with the mest estimatory results."

Genuine has showe Trade Mark and crossed red lines on wrapper. Trake no other. Made only by Brown of the MICAL CO., BALTIMORE, MD.

DR. JOHN BULL'S Smith's Tonic Syrup FOR THE CURE OF

**FEVER and AGUE** Or CHILLS and FEVER,

AND ALL MALARIAL DISEASES. The proprietor of this celebrated medicine justly claims for it a superiority over all remedies ever offered to the public for the SAFE, CERTAIN, SPEEDY and PERMANENT cure of Ague and Fever, or Chills and Fever, whether of short or long standing. He refers to the entire Western and Southern country to bear him testimony to the truth of the assertion that in no case whatever will it fail to cure if

the directions are strictly followed and carried out. In a great many cases a single dose has been sufficient for a cure, and whole families have been cured by a single bottle, with a per-fect restorat on of the general health. It is, however, prudent, and in every case more cer-tain to cure, if its use is continued in smaller doses for a week or two after the disease has been checked, more especially in difficult and long-standing cases. Usually this medicine will not require any aid to keep the bowels in good order. Should the patient, however, require a cathartic medicine, after having taken three or four doses of the Tonic, as ingle dose of KENTS VEGETABLE FAMILY PILLS will be sufficient. USE no other pill.

Price, \$1.00 per Bottle; Six Bottles for \$5. DR. JOHN BULL'S

TH'S TUNIC SYRUP. BULL'S SARSAPARILLA. BULL'S WORM DESTROYER.

The Popular Remedies of the Day.
